 Base Elevation: 1052m / 3450ft
 Top Elevation: 2134m / 7000ft
 Vertical: 1082m / 3550ft
 Average Snowfall: up to 35ft / 1127cm
 Terrain: 2500 + acres

- 15% Novice
- 35% Intermediate
- 30% Advanced
- 20% Expert

Alpine Responsibility Code

There are elements of risk that common sense and personal awareness can help reduce. Regardless of how you decide to use the slopes, always show courtesy to others. Please adhere to the code listed below and share with others the responsibility for a safe outdoor experience.

- Always stay in control. You must be able to stop, or avoid other people or objects.
- People ahead of you have the right-of-way. It is your responsibility to avoid them.
- Do not stop where you obstruct a trail or are not visible from above.
- Before starting downhill or merging onto a trail, look uphill and yield to others.
- If you are involved in or witness a collision or accident, you must remain at the scene and identify yourself to the Ski Patrol.
- Always use proper devices to help prevent runaway equipment.
- Observe and obey all posted signs and warnings.
- Keep off closed trails and closed areas.
- You must not use lifts or terrain if your ability is impaired through use of alcohol or drugs.
- You must have sufficient physical dexterity, ability and knowledge to safely load, ride and unload lifts. If in doubt, ask the lift attendant.

Know the Code - be safety Conscious - it is your Responsibility

AVALANCHES

Fernie Alpine Resort is a mountain with some very steep terrain. Snow remains deposit large amounts of fresh snow on the Lizard Ridge and Lizard Ridge. Avalanche conditions within the ski area can become extreme. During hazardous periods, areas within the ski area are closed and avalanche control work is complete and the skiing is safe. The areas of closure and any use of closed areas on that avalanche control team can do their work. LRB pass suspensions may result.

OUT OF BOUNDS SKIING

The Lizard Range surrounding Fernie Alpine Resort offers exciting and challenging terrain to the experienced traveler. There is a real danger of avalanches outside the ski boundaries. Skiers must be prepared to travel on their own. There is no avalanche control on all patrol routes. The slopes are steep and the snow deep, traveling outside the boundary is recommended only for those people experienced and equipped to deal with serious avalanche dangers.
