AVALANCHES

Fernie Alpine Resort is a mountain with some very steep terrain. Snow storms deposit large amounts of fresh snow on the Lizard Range and Lizard Ridge. Avalanche conditions within the ski area can become extreme. During hazardous periods, areas within the ski area are closed until avalanche control work is complete and the skiing is safe. Be aware of closures and stay out of closed areas so that avalanche control teams can do their work. Lift pass suspensions may result.

OUT OF BOUNDS SKIING

The Lizard Range surrounding Fernie Alpine Resort offers exciting and challenging terrain to the experienced skier. There is a real danger of avalanches outside the ski boundaries. Skiers must be prepared to travel on their own. There is no avalanche control or ski patrol rescue. The slopes are steep and the snow deep, traveling outside the boundary is recommended only for those people experienced and equipped to deal with serious avalanche danger.

BOWLS, TRAILS AND ZONES

Bowl	Trail	Zone	
SIBERIA BOWL	Falling Star	Hot Spot	
	Morning Glory	Nice Dash	
	Siberia Ridge	Wimp Chutes

ALPINE RESPONSIBILITY CODE

- Always stay in control. You must be able to stop or avoid people or objects.
- People ahead or downhill of you have the right-of-way. You must avoid them.
- Stop only where you are visible from above and do not restrict traffic.
- Look uphill and avoid others before starting downhill or entering a trail.
- You must prevent runaway equipment.
- Read and obey all signs, warnings and hazard markings.
- Keep off closed trails and out of closed areas.
- You must know how and be able to load, ride and unload lifts safely. If you need assistance, ask the lift attendant.
- Do not use lifts or terrain when impaired by alcohol or drugs.
- If you are involved in a collision or incident, share your contact information with each other and a ski area employee.

Know the Code - It is Your Responsibility
